# 2016 has been a year of learning and education

I have completed the Graduate Diploma of Dermal Therapies (Level 8) and currently finishing the Graduate Certificate in Laser and IPL Hair Reduction.

Basically its an upgrade of my qualifications to keep me up to date. I now feel that I am better informed to offer advice in skin health and aging to my clients.

# NEW to Proskin Clinic

I recently attended the APAN conference in Perth to coincide with the Practical component of the ACCDS training which I need to do (Non ablative fractional laser) and have introduced the A Ocean Saline Non Laser Tattoo removal system.

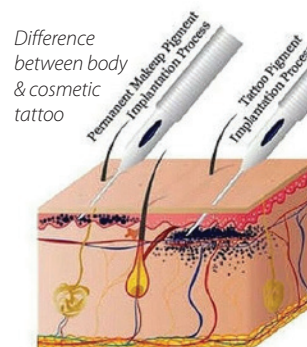

## Now Available: A+ Ocean Conventional and Saline Tattoo Removal

A+ Ocean is the first hypertonic sterile saline solution on the market to naturally remove cosmetic and conventional tattoos. It uses the finest refined salt which is designed to create a superficial scab. The natural healing process removes or lightens the pigment when the scab falls off. Its carcinogenic free, FDA approved, and doesn't break down tissue like laser and treatment is comfortable.

Only available to licensed and trained professionals. Plain and simple A+ Ocean works! Please contact me direct for more details.
