Autumn '19

Hello Autumn!

Is it that time of the year again?

With the hot summer and crazy Mad March behind us we now have Easter to look forward to as well enjoying Autumn (my favourite season) Cooler nights, the magic of the Autumn leaves changing colours and shorter days.

With less sun it is also an ideal time to treat pigmentation and uneven skin tone, I have attached a \$50 voucher to use towards any full price treatments. Look forward to seeing you soon.

Carolyn xx

Now that summer is over - Autumn is a good time to treat Pigmentation and uneven skin tone. Did you know that blotchy uneven skin tone is more aging than fine lines and wrinkles? There are a couple of options to treat Pigmentation.

1 IPL Skin Rejuvenation

Value \$90
May Special
 Book in for a Face/Neck/ Chest treatment or Forearms and receive your hands for free.

Intense Pulse Light is also effective in treating pigmentation, uneven skin tone, sun damage, freckles, brown age spot and promotes collagen synthesis. Using a 530 to 560 nm lense the IPL light is changed to heat energy and targets tissue under the skin's surface to promote cell renewal for a younger more even skin tone.

It is also effective on skin redness as light is absorbed by the blood then converting into heat, resulting in vasoconstriction and coagulation.

Face, Neck & Décolletage	\$250
Forearms	\$175
