Spring '19

\$50 Gift Voucher included
To use towards your next treatment.

Welcome Spring!

Welcome to Spring after a long cold miserable winter. The warmer days and sunshine are most welcome and boost our moods and spirits. As we shed out layers of clothing your skin may be in need of shedding dead dry skin cells to reveal a fresher, younger and glowing skin. I will be looking at introducing "Dermaplaning" next month. More info to follow on this treatment when it is launched.

Cosmeceutical versus Cosmetic Skin care Products

What is the difference ?

A Cosmeceutical Product contains active ingredients that create a physiological change and improvement in the skin. They need to be professionally recommended and not openly sold on shelves. A cosmetic skincare product looks and smells nice but will not give the results like an active product. Ultraceuticals, ASAP, Environ and Intraceuticals are all cosmeceuticals. It is important to have a professional consultation for active products to avoid adverse reactions.

SKIN HEALTH & REJUVENATION

Terms & Conditions

Please present voucher at your appointment.

One voucher valid PER CLIENT until expiry date. By Appointment Only.

Voucher is non-refundable and is not redeemable for cash.

Cancellations: 24 hours notice is appreciated.

Payment: cash or Eftpos.

Punctuality: arriving late for your appointment will limit time allocated for your treatment.

Can be redeemed off any **full price treatment over \$150***.

Seeing what's new!

I attended the Sydney International Beauty Expo on 24th August. It was exciting to see all of the new developments in the Beauty Industry.

Smoking effects on the Skin

In this newsletter I wanted to highlight how lifestyle choices can affect the skin. Smoking is aging and harmful to the skin as it produces irritants to the epidermis and dermis is impacted via blood circulation. Toxic compounds cause dehydration, decrease in collagen production and elastin. Lip lines are caused by pursing of the lips during smoking as well as wrinkles around the eyes. Smoking causes damage in the skin resulting in upper and lower eyelid bags, as well as a loss of firmness around the mouth and jaw area. The skin can take on a sallow or ruddy red complexion. I have included a picture of a case study of identical twins in USA. The twin on the left a smoker and sun worshipper who lived in Florida and the other twin lived in a different part of the country and didn't smoke. The case study could be a before and after for a facelift!

Smoker

Non-smoker

Half price touch-ups

Is it Cosmetic Tattoo touchup time?

I am happy to offer a **half price** touch-up price to existing clients. If additional top ups are needed then its \$100 to cover the cost of consumables.

Hollywood facials are here!

Kim Kardashian West, Lara Worthington, Victoria Secret Models and Madonna are all fans of skin technology I have available in my studio. You can have the Red Carpet star treatment with the ASAP Microplus incorporating Sonophoresis (soundwave technology) to either deep cleanse or increase product penetration into the Skin. The Intraceuticals Oxygen facials are also a popular Red carpet treatment.
