Eyebrow shape trends over the years

This is why the modern Cosmetic Tattoo pigments are designed to fade off so shapes can be adjusted.

Dermaplaning

I have been very excited to be introduce Dermaplaning (Epidermal Levelling) to my menu. I personally love this treatment and I know when you try it you will too!

Dermaplaning + Sonophoresis Hydration Infusion + Alginate Mask	\$130
Dermaplaning on its own	\$99

What is Dermaplaning?

Dermaplaning is a physical exfoliation that utilizes a specialized instrument designed to scrape away accumulated dead skin cells and vellus hair to reveal newer, younger skin. It works similarly to a peel, by removing the top layer of dead skin cells. Dermaplaning also stimulates the production of fresh, young skin cells, while helping your skin to breathe easier. Active ingredients in skin care products can penetrate into the deeper layers resulting in healthier skin. It is a comfortable, relaxing and completely pain free procedure with no down time that can be combined with other services like to improve their efficacy.

Benefits of DermaplanePro

- Immediate improvement in skin tone
- Skin will be softer to the touch and smoother in appearance
- You'll enjoy a brighter complexion with a more youthful glow
- Active ingredients in skin care product penetrate more deeply improving skin health
- Makeup glides on easily & looks flawless
- Great for all skin types and colours
- Will not aggravate telangiectasia (broken capillaries)
- Helps reduce blackheads and enlarged pores
- Unlike waxing, can be performed on clients using Retinols
- Minimal risk of post-procedure breakouts
- There is no down time

Staying on top of things!

In the last few months I have been busy travelling interstate to the Sydney International Beauty Expo and APAN Cosmetic Tattoo Seminar held on the Gold Coast-both events were informative and great to see what's on trend in the industry as well as network with other like minded professionals.
